

Contractor Schemes

DEFINING THE NEEDS

Increasingly the Job Market in the UK has put more people than ever into a Self-Employed role or a Contractor role where previously it would have been seen as a straight-forward Employee position. This has affected both the Private Sector as well as, now, in a bid to save costs, even the Public Sector. Often these people are not aware of the best structured way to maximise what they can legitimately keep of their earnings.

APPLYING THE SOLUTION

Working with our specialist Tax teams we can offer various schemes that offer alternative, cutting-edge tailored schemes to enable contractors, and others, significant tax benefits.

HOW CAN WE DO THIS?

We work for you to match the most appropriate structure for the type of job and industry that the contractor is working within.
